

# MUSTANG SAMMY

1999 TOBIANO Stationbred

Sire ZEALANDO NATIVE WARRIOR <hr/> Clydesdale/Stationbred		
Dam TANGO Stationbred		

MUSTANG SAMMY is by Zealando Native Warrior and out of a mare called Tango and they were both coloured. His dam is stationbred and his sire is clyde x stationbred. Mustang has 7 generations of colour on his sires side and 6 on his dam's. Mustang was bred in Te Kuiti by Rebekah Van Ess and her partner Ted. They were called Horse Whisperer Pinto stud. He was then bought by Kim Smith of Dipton in the South Island and was transported down there as a weanling where he just ran with mares and stayed unbroken until purchased by the stud as a four year old and transported him back to the North Island to Central Hawkes Bay. He was broken in straight away and taken several times to the Tielcey Park indoor jumping. Mustang was jumping 1 - 1.10m and had potential to go higher with heaps of scope. He did that all winter then went to his first show and unfortunately a week later fractured a front leg and has left him unable to be ridden. He has 12 foals due this season to an assortment of different mares. Mustang has an excellent temperament which he passes on to his foals.

Mustang stands in Waipukurau, Central Hawkes Bay and his service fee is \$400 and \$10 per week grazing.

**Book on the day of the parade and breeders will get the service for \$300 instead of the usual fee of \$400.**
